EDUCATION

B.S. in Cognitive Science, w/ Specialization in Machine Learning and Neural Computation

University of California, San Diego - Class of 2020

09/2016 – Present

GPA - 3.61

Relevant Courses

- Probability and Statistics
- Data Analysis and Modeling
- Linear Algebra
- Machine Learning
- Data Structures and Object-Oriented Design
- Vector Calculus

WORK EXPERIENCE

Machine Learning for Social Science Lab Assistant

The Center for Peace and Security Studies

01/2019 – Present

UC San Diego

Research center of the Department of Political Science, conducting research on the causes of war and peace through machine learning.

Achievements/ Tasks

- Using R to analyze data sets and determine leading causes of political crises.
- Collecting and cleaning data using R for various projects under the MSSSL.

Contact: Thomas Leo Scherer – tlscherer@ucsd.edu

Research Assistant

Language Comprehension Lab

12/2017 – Present

UC San Diego

Linguistics lab exploring how a linguistic form maps to a situation model in the human brain.

Achievements/Tasks

- Conducting and designing online experiments in JavaScript, and analyzing data sets of hundreds of participants using R.
- Created a R script to merge .csv files from a web-page to facilitate data analysis for other assistants.

Contact: Eva Wittenberg – ewittenberg@ucsd.edu

Android Developer Intern

TheTalkList, LLC.

08/2017 – 01/2018

San Diego, CA

Social education platform that facilitates online tutoring and learning.

Achievements/Tasks

- Collaborated with an international team to test, develop, and implement UI changes in their Android tutoring app.
- Found and debugged over 10 bugs in each new APK.
- Told by CEO Andres Abeyta that I exemplified communication and problem-solving skills.

Contact: Andres Abeyta – aabeyta@thetalklist.com

SKILLS

Java

HTML/ CSS/ JavaScript

Android

Jupyter Notebook

Python

Git

Tutoring

Cooperative

Fast-Learner

Communication

R

PERSONAL PROJECTS

Titanic Challenge (11/2018 – 12/2018)

- Competed in Kaggle's Titanic challenge, where I had to solve a binary classification problem.
- Using scikit-learn and Jupyter Notebook, I pre-processed the given data, analyzed it, and trained 7 models before aggregating them via ensemble learning, which achieved an accuracy of 0.77.

Personal Website (10/2018 – 10/2018)

- Used HTML, CSS, and JavaScript to launch my own website.
- Taught myself the fundamentals of web development.

Frogger (09/2017 – 09/2017)

- Developed a clone of Frogger using JavaFX.
- Created and incorporated a personal "Game Engine" to facilitate sprite creation and hit-box detection for this and future games.

ORGANIZATION

Cognitive Science Student Association (06/2018 – Present)

Responsible for engaging the UCSD Cognitive Science Community through professional and academic development events and networking events.

CERTIFICATES

Machine Learning by Stanford University on Coursera (07/2018) 

Certificate of Writing Excellence (10/2017)

LANGUAGES

Spanish
